

## 10 CSR 10-2.150 Time Schedule for Compliance

(1) Except as otherwise specified, compliance with the provisions of this regulation shall be according to the following time schedule:

(A) All new installations shall comply as of going into operation;

(B) All existing installations not in compliance as of the effective date of this regulation shall be in compliance within six months of the effective date unless the owner or person responsible for the operation of the installation shall have submitted to the executive secretary in a form and manner satisfactory to him, a program and schedule for achieving compliance, such program and schedule to contain a date on or before which full compliance will be attained, and such other information as the executive secretary may require. If approved by the executive secretary, such date will be the date on which the person shall comply.

(1) The executive secretary may require persons submitting such program to submit subsequent periodic reports on progress in achieving compliance.

(C) All other dates notwithstanding, all existing installations in Buchanan County shall be in compliance with this regulation by Sept. 1, 1970, and Jan. 1, 1971 for 10 CSR 10-2.050, unless the owner or person responsible for the operation of the installation has submitted to the executive secretary in a form and manner satisfactory to him, a program and schedule for achieving compliance, such program and schedule to contain a date on or before which full compliance will be attained, and such other information as the executive secretary may require. If approved by the executive secretary, such date will be the date on which the person shall comply.

## EPA Rulemakings

Description: The EPA approved recodification of the rule from Regulation XIV (Kansas City Metropolitan Area) to 10 C.S.R. 10-2.150.

[illegible]

Description: The EPA approved Regulation XIV (Kansas City Metropolitan Area) as part of the original SIP submission. The rule required existing sources to come into compliance with the KCMA rules within a certain period of time and required new sources to be in compliance when going into operation.
